

Coleman Community Carnival July 20 and 22---Fine Prizes

AUTO EXPORTERS MAKE THE WORLD "MOTOR CONSCIOUS"

Desert Oases now Filling Stations and Road to Mandalay has Signs, "We Fix Flats"

Almost a million dollars a day is the total amount of business being done in 106 countries at the present time by the three score directors of the largest export activity in the world, that of General Motors, who visited the Oshawa plants of General Motors of Canada this month.

To make a two weeks' tour of inspection of the Canadian and United States plants these managing directors of the overseas assembling plants and regional directors from Europe, South America, the Far East and the Caribbean travelled altogether half a million miles.

A number of them who will be away from their homes for from three to four months felt touches of homesickness at Oshawa as they watched the railway flat cars being loaded with huge cases addressed to the countries which they had left many weeks before. One of them, G. P. Harrington, managing director of General Motors, Java, mentioned that he would completely circle the globe before returning home. Perhaps the most travelled of the group was E. M. Van Voorhes, managing director of General Motors, Japan, who covered a distance of 16,000 miles between Oshawa and Oshawa, having come via the Trans-Siberian Railway and Europe.

During the tour of inspection R. S. McLaughlin was praised by the overseas executives for the high standard of workmanship which obtained throughout the Oshawa plants. The high type of personnel employed was also noted.

In welcoming the party to Oshawa Mr. McLaughlin complimented J. D. Mooney, president of the export company, on the rapid expansion of the organization where business had grown from \$121,000 in the first year to more than a million a day. In April of this year the sale of 35,000 units created a new export record for all time.

Twenty thousand men and women are now employed by the export division which operates through 24 assembly plants and warehousing operations and 9000 dealers. About the only country where they haven't succeeded in penetrating is Tibet, where the total motor vehicular population consists of one lone motorcycle.

These executives from the far corners of the earth tell how the whole world is riding on rubber tires. Age-old forms of transportation are giving way to modern motor transport. Even the moderns in travelling to the holy city of Mecca, where they used to crawl on their hands and knees, now travel in motor busses. They tell how filling stations are being built in the oases in the desert, how signs which read "We Fix Flats," line the road from Rangoon to Mandalay.

Included among the various sections of the British Empire were represented at Oshawa were London, England; Perth and Melbourne, Australia; Wellington, New Zealand; Bombay, India; Capetown, South Africa; Alexandria, Egypt. Representatives were also present from Argentina, Copenhagen, Stockholm, Java, Osaka, Japan; Antwerp, France, Madrid, Police, Warsaw; Brazil, Uruguay; Berlin, Germany.

OLD AGE PENSIONS BOARD OPERATING

Applications will now be received from those eligible for assistance under the terms of the Old Age Pensions Act, it is announced by Alex Ross, chairman of the board. Application forms are available for all persons desiring to apply for pensions, and arrangements have been made by the board whereby applicants will be enabled to do so with the least possible difficulty. In rural districts applications will be received by the secretary-treasurer of municipalities. In unorganized districts application forms may be secured from the office of the nearest detachment of the Alberta Provincial Police.

Personal and Local

Chas. Scott of Tacoma, Wash., is spending a few days visiting his parents, Mr. and Mrs. J. Scott.

Miss Verna McDonald accompanied the tennis players to Cranbrook for the annual tournament.

D. C. Robert left during the week for a two weeks' vacation on Vancouver Island.

Miss Kathleen Gray of Boston, Mass., is visiting Mrs. W. Fraser, covered street.

Miss Margaret Reid of the Cameroun school staff, left on Friday to spend part of her vacation at Guernsey, Sack.

Mrs. J. Wood and Mrs. Greenhalgh left last week via C.P.R. steamships from Montreal to spend several weeks visiting relatives in England.

Mr. and Mrs. Thos. Johnson left last week for Arrow Park, B.C., to spend the next three months with a son there.

Dr. Little intends shortly to leave for a holiday visit to his old home at Belleville, Ont. His parents, who live at Creston, B.C., have already gone east to spend part of the summer.

Dr. and Mrs. Borden motored to Edmonton last Saturday to meet their son Bob who will spend the summer vacation here, on completing the term at school at Victoria, B.C.

Capt. R. F. Barnes leaves on July 10 for Sarcee Camp, being in command of the 10th Field Brigade, C.F.A., and he will remain there till Aug. 15th, filling the duties of range officer.

Mr. and Mrs. Hoyle and family left last week-end for Edmonton, where Mr. Hoyle will mark examination papers, and later they will go on to Jasper national park to spend the holidays. "They are journeying by car."

Saturday night two autos collided on the Blairmore road a short distance from Coleman, both owned by Coleman people. The cars were damaged but the occupants escaped injury.

Dave Flynn, recently writing to his parents from Victoria, B.C., where he is working for the B. C. Telephone Dept., stated that he saw no less than six Coleman people pass while he was waiting for a friend on one of the main streets of the city.

An election was held yesterday at the International mine for the position of check-weighman, the candidates being W. Haysom, who has held the position for some years, Alex Godsoff, Wm. Fraser and Jas. Penny. The nominations are made by the members of the Miners' Union, the election being by secret ballot.

Few Changes in Teaching Staff

Members of the teaching staff of the high and public schools have signed on for next year, with the exception of Miss Adam of the high school and Miss Milligan of the public school. Mr. Sidney White, who has been taking the place of Miss Milligan for the completion of her term, will teach after the holidays at High River high school.

Land and Water Champions

Parkdale Ladies Athletic Club of Toronto recently visited Montreal, and since all the nice girls love a sailor and ships, they had of course to pay a call on Canadian Pacific steamer Metagama, then in port. After tea and inspection of the ship, the young ladies donned their bathing suits and exercised on the broad decks of the liner. The photograph shows, left to right, Dot Prior, Olympic champion swimmer; Captain M. F. Murray, R.N.R. skipper of the Metagama; and Myrtle Cook, Olympic champion runner.

Lethbridge Miners Coming

On Friday, July 26, Lethbridge miners and their families will hold a monster picnic here, on similar lines to that of last year. Between 1400 and 1500 people are expected, for whom a special train will be provided by the C.P.R. Accompanying them will be the fine pipe band of the Caledonian Society, and a dance orchestra. Coleman Citizens Band has also been engaged, and efforts will be made to arrange for a holiday at both mines here so that local people may join in the festivities.

James Sloan, secretary of the local union at Lethbridge, was here recently making arrangements for the day's program, and local officials assured him that Coleman people would extend a hearty welcome to the large party. The sports ground will be utilized for the occasion, and matches between baseball and football teams of the Pass towns and Lethbridge teams will be played. All Coleman business men are asked to co-operate in pending arrangements for the reception and entertainment of this large party of visitors.

Miss Anna Michalsky and a number of young ladies under the name of the Young Ladies' Sodality are holding a benefit dance on Tuesday next in the Opera house for which tickets are now being sold. After-mat orchestra will play for the dance.

Successful Carnival

Blairmore carnival was attended by a large number of people from Coleman, and on Saturday night two door prizes of \$15.00 and \$10.00 were won by Mrs. Mitchell and Mrs. Derbyshire. The grand prize was won by Nick Oswald, taxi driver, it being a handsome Chesterfield and lamp. This is the second time he has won the leading prize in Blairmore carnivals.

Goes to Sentinel Plant

W. J. Burns has resigned from the power house staff of the McGillivray Creek Coal & Coke Co., after 17 years as engineer, and commenced on Monday with the East Kootenay Power Co., at the Sentinel plant in a similar capacity. Last week he attended the convention of Alberta municipalities, and was elected as second vice-president of the Union of Alberta Municipalities.

Moved to Fort William

Mrs. Montague Wilson and son, Sidney White, left on Tuesday evening for Fort William, Ont. Mrs. Wilson will reside there, her husband having been appointed as accountant for P. Burns Ltd., the well-known Alberta packers, at that city, having been transferred from Nelson, B. C., where they have resided since their marriage here. Mr. White will spend his vacation there before taking up duties on the high school staff at High River, Alta.

"Tea is Served"

These sophisticated little Cunard trans-Atlantic travellers knew the ropes aboard the big liner Aescania before they had been aboard many hours. They are chiefly little Canadians who were visiting uncles and aunts this spring in the Old Country, and they missed very few of the frequent servings of refreshments, which one takes for granted at sea.

ST. ALBAN'S CHURCH, COLEMAN

The J.W.A. and the Sunday school are closed until September.

The Sunday school picnic will be held at the lake on Wed., July 17 at 2 p.m. Offers of cars or trucks to convey the children will be thankfully received. The parents and all other members of the congregation are asked to come, so that we may call it a congregational picnic.

The Orange Lodge and L. O. B. A. will attend service at St. Alban's church next Sunday at 7 p.m. It will also be the Thanksgiving service for the King's recovery from his illness. The choir will sing the anthem, "Send out Thy Light."

Local News

Coleman Citizens Band will leave for Calgary exhibition on Sunday night, to take part in the annual competition.

Mr. and Mrs. Emmerson and family motored to Fernie on Dominion Day and saw part of the patriotic celebration and sports program there.

Mr. and Mrs. Chas. Maltby left on Monday for their home at Nelson, B. C., after visiting with Mr. and Mrs. F. G. Graham and family for two weeks.

Ruth Morrison returned on Sunday from school at Victoria, B.C., and Adela Whitehead returned with her as far as Calgary, where the latter was met by her parents who were visiting in the city.

The swimming pool has been reopened for the season, and the familiar sight of small boys with bathing suits wending their way across the track makes it very evident that the good old summer time is here.

One place in Coleman observed the significance of Dominion Day by displaying the Union Jack and the Canadian ensign, and that was the Knights of Pythias hall, where Bud Clarke is in charge.

Expenditures by the Alberta government on highways this year will be in the neighborhood of \$5,238,000. The Peace River and Jasper highways will take quite a large proportion of this.

Capt. Thierstein of the Salvation Army left recently to take over duty with the Gospel car, four officers being assigned for duty to travel Alberta. Lieut. Meakings will remain in charge here, and will be joined by Pro-Lieut. Jake Zoutendyk, who has just been commissioned from the training college of the Army in Winnipeg. It is probable Capt. Thierstein will return in October, and at that time it is likely that Lieut. Meakings will be transferred. He came here the latter part of June 1928.

COLEMAN PLAYERS PLAY WELL AT CRANBROOK TENNIS TOURNAMENT

Finals in Men's Doubles to be Played Between Local Players Here — McLeod Reaches Quarter Finals in Men's Singles.

Members of Coleman Tennis Club who competed in the annual tournament of the Crow's Nest Pass Tennis association at Cranbrook over the week-end were Mr. and Mrs. J. McLeod, Mr. and Mrs. Lindoe, R. F. Barnes, Malcolm McCallum and Miss Verna McDonald. Mrs. Kerr of Blairmore and Phanie Fraser won the ladies' doubles, but was forced to give up owing to the heat, and therefore defaulted to her opponent, Mrs. McIntosh.

J. A. McLeod and Luke Lindoe and M. McCallum and R. F. Barnes qualified for the men's finals in the doubles, and this will be played at Coleman on a date suitable to the players. Mr. McLeod was also in the finals for the men's singles, playing a fine game, but was defeated by Geo. Simpson of Cranbrook. Players were present from Blairmore, Fernie, Coleman and Cranbrook, and the visitors spent a very enjoyable three days, though the heat on the asphalt courts was trying.

Saturday night's eastbound train ran into three horses just at the trestle bridge of the International mine which crosses the railway track. One was cut in two and half of its body carried several hundred yards, and the other two were knocked lifeless from the track. The bump of the impact caused the breaking of the air brake line between the engine and tender, which caused a delay of half an hour to the train.

NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of Terasa Korman, late of Coleman in the Province of Alberta, deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named Terasa Korman, who died on the 4th day of September, 1928, are required to file with the undersigned Solicitors for the Executor by the 1st day of August, 1929, a full statement duly verified of their claims and of any securities held by them, and that after that date, the Executor will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to his knowledge.

DATED this 28th day of June, 1929.

Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude boric acid. What your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Spare the Wild Flowers

Possibly nothing is so much a part of our lives from the cradle to the grave as flowers. Set the infant down amongst wild flowers, and immediately he wants to eat them all. Then the toddler arrives with something for "Mom." The chubby little fat will only contain a badly crushed dandelion, but in his eyes it is very precious.

We all remember the schoolroom the morning after the circus. No one had done any homework, so our teacher's desk looked like a condensed flower show. The dear lady (my mother) was covered with violets! I tried to look very severe and pretended she could not find her strap. Little Fatty puffed in ten minutes late with a bouquet of seven enormous sunflowers for "teacher." Then she hid to laugh, and we roared. She stood the sunflowers in the corner where she had no often stood Fatty and gave us all double homework, which we all carefully prepared. Next comes the careful selection of flowers for the "only girl" and the sight of the obnoxious bunch the other fellow brought. So it goes on all through life; in times of joy, and times of grief, flowers will bring messages of goodwill and hope into our lives.

And how old and young alike welcome the first flowers of Spring, and rejoice in the ever recurring miracle of the tiny seeds developing so rapidly until flowers in all their multi-colored varieties turn the long bleak garden into a thing of beauty, and the unattractive bulb produces blooms of exquisite loveliness.

In isolated parts of Canada's great national parks, and in remote parts of this great Dominion as yet unspoiled by man, wild flowers are so beautiful, so plentiful, and in such variety, that one is filled with rapture and reverence at the knowledge that so much beauty could be found in one place. It is difficult to realize that there was a time when beautiful flowers grew in profusion all over the park. The thoughtless and excessive gathering of flowers has completely removed many of the most beautiful examples from the easily accessible places where weeds now predominate.

The threatened extinction of the most attractive of our park wild flowers has become a serious problem to the park authorities. The distinction between a flower and a weed is, in a measure, only a question of scarcity or abundance; their desirability depends as a rule on their rarity. The man who could so popularize the dandelion, the stinkweed and the thistle, that they would be gathered in preference to the avalanche lily, the columbine and the lady's slipper, would become immensely popular with the park authorities. Unfortunately the gathering of a bouquet of these weeds would create about the same amount of hilarity as the amateur duck hunter proudly displaying his bag of mud hens.

According to the park laws, the man who chomps down a lot of beautiful trees merely to hear them crash, and the man who fills his car with wild flowers merely to throw them out withered and useless at the next stop, are both equally guilty, and both are liable to a heavy fine. While ninety-nine out of every hundred tourists would view with satisfaction the arrest and subsequent punishment of the tree chopper, only one out of the same hundred would not consider the flower waster a victim of oppression were the same treatment meted out to him as to the tree chopper. The reason is that flower picking has become a universal habit, which habit on the part of a selfish or greedy individual becomes a nuisance, depriving others of the enjoyment of the flowers which he only appreciates in the getting. A striking contrast is the lover of flowers who sparingly and carefully preserves his specimens for reference, or visits the growing flower many times to study its development.

If the tourist would only realize that the unpicked flower will retain its beauty for days and add greatly to the pleasure of many future tourists, while the picked flowers only lasts a half-hour or so, when it becomes a sorry wreck and is thrown away in disgust to bring no pleasant memories to anyone!

The tourist traffic has become a great asset to Canada. It is a financial asset of hundreds of millions of dollars annually. But it is more than that—it brings tens of thousands of people from other countries who come to know and love Canada. This intermingling of peoples makes for understanding, goodwill, and world peace. Tourists will not flock to barren, weedy wastes, and unattractive countryside. They come to view, and enjoy the beauty that is Canada, the grandeur of its scenery, its lakes and rivers, forests and mountains, and its unspoiled natural beauty.

Every flower uprooted and soon thrown away, every blossom thoughtlessly picked instead of being left to bloom and re-seed itself for next year, is a serious depreciation of that great national asset, and an ultimate enormous loss to Canada.

Think it over the next time you are tempted to pick an armful of lovely wild flowers turning some secluded spot along the highway or in a national park into a place of almost breathless beauty.

Attended Memorial Service

Representatives of the Canadian Government and the British Legion joined with a number of residents and visiting citizens of the United States, in attending a brief memorial service in the American cemetery at Rockwood, England. Hundreds of U.S. soldiers were buried at Rockwood during the great war.

Why Judges Get Grey

Judge (to witness): "Repeat the prisoner's statement to you, exactly in his own words. Now, what did he say?"

Witness: "My Lord, he saith he stole the pig."

Judge: "Impossible! He couldn't have used the third person."

Witness: "My Lord, there was no third person."

Judge: "Nonsense! I suppose you mean that he said, 'I stole the pig!'"

Witness (shocked): "Oh, my Lord! he never mentioned your Lordship's name!"

Foreman: "Yes, Pat, I told you to start this morning, and bring your mate along with you, but where's your mate?"

Pat: "Shure, roard, I ate me 'mat' coming up the roard."

Each group of 60 persons in an audience or congregation gives off heat equivalent to that of an average-size steam radiator.

Dust Makes Long Journey

Australian Air Travelled 2,000 Miles Through Air To New Zealand

One of the most unusual dust journeys on record was that made by many tons of Australian soil that travelled more than 2,000 miles through the air to New Zealand, according to recent reports. The greater part of the journey was over water. In many parts of New Zealand during the first fall, when the dust was brought down by rain, the mixture was referred to as mud rain. Some of it fell on sweaters of players during a football match, and so discolored them that it was difficult to pick out the garments of the different teams. Although not the first dust storm to travel from Australia to New Zealand, the deposit was remarkable both for quantity and the area over which it was recorded.

HEALTH REGAINED

Mother and Daughters Restored Through the Use Of Dr. Williams' Pink Pills

"Contrary to what my friends once thought, I am still living," says Mrs. Norman White, New Canada, N.S., "and I give the credit to Dr. Williams' Pink Pills. I had been a sufferer for some years. I was weak and run-down; my heart would palpitate violently at the least exertion. I grew so weak that I could not do my household work. I was under a doctor's care, but it did not benefit me. A second doctor was called in, but with no better result. I was told that I was almost bloodless, and I became so weak I was forced to leave my home. My friends did not believe I could recover. While in this condition a neighbor strongly urged me to try Dr. Williams' Pink Pills. It was like grasping at a straw, but six boxes of this medicine were got for me, and by the time I had taken them I was able to sit up. Another six boxes were got and soon I was able to go about, my health steadily improving. I continued the use of the pills until I felt my health fully restored. I still take the pills occasionally as a safeguard. My two daughters have also used the pills with the most beneficial results. The trouble in both cases was the anemia that so often comes when girls are overworked and have little sleep. The use of this medicine both fully regained health, strength and activity. You can see, therefore, could not be possible for me to praise Dr. Williams' Pink Pills too highly, and I hope every weak person who is troubled by this ailment will find relief by my experience."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Model Summer Resort

Alberta Government To Investigate Site Forty Miles West Of Calgary

The Alberta Government has appointed a committee to investigate the proposed model summer resort at Ghost Lake, forty miles west of Calgary on the Bow River. The plan is idealistic in that it provides for summer homes for the working classes for the very lowest cost. The Calgary Power Company, the Government and Calgary citizens' committee are co-operating in the project which is non-profit making.

Miller's Worm Powders act mildly and without injury to the child, and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as the best preparation for the purpose. They have proved their power in numerous cases and have been sold to many children, who, but for the good offices of this compound, would have continued weak and enfeebled.

Quite In Favor

A canvasser, approaching a hefty-looking navvy, asked him whether he was in favor of returning a certain candidate to Westminster.

The navvy took his pipe out of his mouth, gazed at the canvasser with out enthusiasm, and said, "Yus, it's that's where he comes from."

For Rheumatic Pains.—The pains and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains either in human beings or the lower animals.

Using Many Pulpstones

Over half a million dollars worth of pulpstones are used annually in the 60 Canadian pulp mills.

Alberta Town Planning Scheme

Most Progressive Plan To Be Found On The Continent Of North America

The most progressive town planning scheme to be found on the entire continent of North America was recently established by the province of Alberta, H. L. Seymour, C.E., told the members of the Town Planning Institute of Canada at a meeting in Winnipeg.

The laying out of rural parks, picnic grounds, tourist camps and school grounds, of fair grounds and hospital grounds, was all provided for; advice to cities, towns and villages on their planning problems was available; and the service of the board was open to farmers in helping them to lay out homesteads, grouping buildings or installing running water. It was a service extending all over the province, Mr. Seymour said.

All this had been made possible by the support of the people of the province. The inspiration had come from the premier, who, on his visit to England in 1927, saw the beneficial effects of town planning as it is being carried out in the Old Country.

Wheat Pool Development

Saskatchewan Pool Estimates 175,000 Bushels Of Grain Will Be Handled This Season

Combined handlings of wheat and coarse grains by the Saskatchewan Wheat Pool during the 1928-29 crop year will amount to approximately 175,000 bushels, according to an estimate presented to delegates in attendance at the semi-annual meeting of the organization at Regina.

A tabulated statement showing the handlings by the pool of various kinds of grain during past years, together with an estimate of the total handling for 1928-29, indicated that this season will far surpass former dealings.

A thorough review of the development of the Saskatchewan Wheat Pool elevator system, however, was given in the report of the board. Delegates were presented with a financial statement, showing the capital position of the organization, as to its ability to finance further extensions of the country elevator system.

Largest Gypsum Producer

Nova Scotia Is the largest producer of gypsum in Canada followed by New Brunswick, Ontario, Manitoba, and British Columbia.

WINDOLITE stands for 100 per cent. sunlight. It makes light strong windows for cash sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold and will not crack or shatter under an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but is one width of 38 inches only. A square yard of WINDOLITE will give about 14 ozs. of glass. A square yard of glass of ordinary thickness weighs about 135 to 140 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

British Preferential Treatment

Increasing Trade Is Shown With 29 British Countries

Since 1921 there has been an increase of nine British countries which enjoy customs tariff preferential treatment, while in the same period the number of foreign countries that enter into mutual compact in this connection rose from 14 to 43. This is shown in a return table in the House of Commons, in which it is also noted that in the fiscal year 1921-22 Canada exported to the 29 British countries enjoying preferential rates \$37,585,882 worth of commodities while in the fiscal year 1928-29 this had increased to the 29 British countries to \$503,864,623.

Start Education Campaign

W.C.T.U. Will Discuss In Sunday Schools Effects Of Alcohol As A Beverage

A national education campaign through the Sunday schools of the Dominion as to the nature and effects of alcohol as a beverage will be conducted by the Women's Christian Temperance Union. It was decided at the third session of the Dominion convention of the union. Mrs. Gordon Wright, London, Ont., was elected president for the next two years, and Mrs. Louise McKinnon, Charlottetown, P.E.I., vice-president. Mrs. T. H. Wright, Hazelton,

EQUAL TERMS IN SETTLEMENT OF RESOURCES DEAL

Ottawa. — The Dominion government is now prepared to accord to Alberta and Saskatchewan, in settlement of the natural resources question, "treatment similar to that granted to Manitoba with respect to the continuance of Dominion subsidies."

It was stated by the prime minister that the Dominion government having in mind negotiations now pending with the provinces of Alberta and Saskatchewan, and the representations of the governments of these provinces with respect to the continuance of the payment of subsidies in accordance with the terms of existing legislation, is now prepared to accord to Alberta and Saskatchewan, in settlement of the resources question, treatment similar to that granted to Manitoba with respect to the continuance of Dominion subsidies.

The report recommends that Manitoba shall be paid the sum of \$4,584,212 in cash as the balance due for past arrears covering the period during which the resources have been allocated. It also recommends that from now on until the population of Manitoba reaches 800,000, the province shall receive annually the sum of \$562,500. When the population reaches 800,000, the report proposes that this amount shall be decreased to \$750,000 per annum. Finally, when the population increases to 1,200,000, the amount payable annually will rise to \$1,125,000, and remain unchanged thereafter.

Subsidies must be paid from the treasury and the country generally must provide the cash. It has been demonstrated frequently that the eastern provinces of Canada consider themselves very important parties to any settlement which is made of the natural resources question. "Treatment must be fair to both east and west."

The function of the commission was to ascertain what financial readjustment should be made for the purpose of placing Manitoba in a position of equality with the other provinces of Confederation in respect to the administration and control of its natural resources. The report is the commission's answer to this question.

Name Canadian Destroyers

Vessels To Be Called "Saguenay" and "Skeena"

Ottawa. — The two new Canadian destroyers are to be named "Saguenay" and "Skeena," Hon. J. L. Ralston, minister of national defence, has announced. The vessels are being built at Southampton by Thornycroft, Limited, at a combined cost of approximately \$3,000,000 and are expected to be completed in two years. They will replace "Patriot" and "Patrician," which were declared obsolete and were sold some time ago to be scrapped.

Severely Killed By Storm

Belgrade, Jugoslavia. — Press dispatches from Jugoslavia point tell of more than 100 persons killed in the last fortnight by violent recurring lightning storms. Thousands of cattle have been carried away by floods with immense damage to orchards and vineyards.

The King Making Good Recovery

London, England. — "I can give you complete assurance that the King is making a very fine recovery," said the Prince of Wales in a brief speech at the annual banquet of the British Empire Service League. The Prince presided at the banquet.

Population Decreases

London, England. — England and Wales have decreased in population by 44,112 persons in the first quarter of this year which, when compared to an increase of 31,611 persons for the same period of 1928, is causing some alarm.

For Crippled Children

Geneva, Switzerland. — A world conference of workers for crippled children, to be attended by public officials, scientific men and social workers, will be held here July 28 to August 2.

Riel Veteran Dead

Winnipeg. — A participant in both Riel rebellions, George Buchanan, 82, who came to the West as a member of the Red River expedition under Sir Garnet Wolseley, is dead at his home here.

W. N. U. 1788

To Find Solution Of Naval Problem

Premier MacDonald Is Very Hopeful Of Ultimate Outcome

London, England. — Premier Ramsay MacDonald made known his hopes before many days it would be possible to make definite announcement of how naval disarmament negotiations were to be conducted, where a conference would be held, and the precise objects of that conference.

He was speaking at a Labor reception held at the Friends' Meeting House, in Euston Road. At the same time he disclosed that he had had a second conversation with General Charles G. Dawes, new United States ambassador to Great Britain, and had seen Hugh S. Gibson, United States ambassador to Belgium, who arrived in London to assist General Dawes in finding a solution to what has been termed the out-standing issue between the two English-speaking peoples.

Premier MacDonald, while very brief, was extremely hopeful. After he referred to the great political victory Labor had won and the general position of his government, remarking that there would be no miracles and no magic, but a sincere determination and courage to face public questions, he plunged immediately into his revelation.

"We have allowed no grass to grow under our feet. We have already started conversations with the United States."

"I am not a prophet, and am not going to pose as one able to prophesy. I am convinced of this, that the obstacles that have been in the way of an understanding have been created, if I may ring the changes on one English word, by a lack of understanding of each other. The great thing which is wanted in the world today is capacity to understand other peoples, different races and different nations, to put themselves in each other's shoes. That will be one of the things that we shall try to do in the conduct of these negotiations."

Crop Conditions Good

But Not Up To Last Year Says C.N.

Montreal. — Crop conditions throughout Western Canada are not so good as in certain districts, are not generally as promising as at this time last year, stated Dr. W. J. Black, director of colonization and agriculture of the Canadian National Railways, who has returned from official tour of the West. Notwithstanding this, however, conditions generally are more prosperous than for some years in Western cities, said Dr. Black.

There is a tremendous area under cultivation this year throughout the entire Peace River country and land settlement has been going forward there at an enormous rate. Settlers have even gone in large numbers as far northwest as the Fort St. John district and the area generally is as fine lot of people.

Canada's Forest Wealth

Will Take Inventory Of Forest Resources As Preliminary To Reforestation Plans

Ottawa. — Federal and provincial governments of the Dominion are co-operating for the purpose of taking an inventory of Canada's forest resources. The Hon. Charles Stewart, minister of the interior, opened a conference attended by three provincial ministers, as well as by several federal and provincial officials, which will endeavor to arrive at the actual forest wealth of Canada.

In his brief opening address, Mr. Stewart pointed out the importance of this step as a preliminary to reforestation plans.

Posthumous Award For Bravery

Rome. — The gold medal for bravery was conferred posthumously on Dr. Finn Malmgren, noted Swedish scientist, who died while attempting to summon aid after the Polar dirigible Italia, crashed in the Arctic, a year ago. The government assigned the scientist's mother, who lives in Sweden, a pension of \$500 yearly and sent her documents gathered by an official investigating commission and paying glowing tribute to Malmgren's heroism.

Hill In South Africa

Durban, Natal, South Africa. — The most destructive hill-storm in this city's history occurred here causing intense damage which some estimated at 200,000 pounds sterling, about \$300,000. A few minutes after the hill started, it lay eight inches deep on the streets, some of the stones being four inches in diameter.

Damage By Storm Cannot Be Computed

Cost Of Semi-Tornado In Montreal District Will Run Into Millions

Montreal. — The full story of the electrical storm and semi-tornado which swept down from the north, spreading death and destruction in its path from the Laurentians to the eastern townships, remains to be written. — The death toll stood at seven but news from the Laurentian district north of Montreal was only fragmentary owing to continued disorganization of communication lines.

Total damage caused by the storm will never be completely computed, but it is extensive and probably runs well into the millions, \$1,000,000 worth of damage alone having resulted when lightning set fire to the Sacred Heart convent at Saul au Recollet, near here, and completely destroyed that widely known educational institution.

Oldest Odd Fellow Dead

Andrew Wickett, Vancouver, Was Member For Sixty-Five Years

Vancouver. — Andrew Wickett, aged 92, a member of the Independent Order of Odd Fellows for more than 65 years, and said to be the oldest member of that order, is dead here. Mr. Wickett was born in Ontario and became a member of Aylmer Lodge No. 90, I.O.O.F., Aylmer, Ont. As a young man, and to his death, he retained his connection with the lodge. He was a retired lumberman.

MAY RESUME TRADE RELATIONS WITH MOSCOW

London, England. — One of the first acts of the new Labor government has been to cable the announcement that the Dominion governments of the British Empire that Great Britain intends to resume diplomatic relations with Soviet Russia in the near future.

Political observers believe the Labor ministry's move will receive sufficient support from Conservative and Liberal members of Parliament to assure approval of British diplomatic relations with Moscow.

It has long been known the Labor party was in favor of renewing diplomatic and trade relations with Russia, broken off by the raid on Arcos House, London, headquarters of the Russian commercial mission, made by late Conservative government in May, 1927.

Although His Majesty's government is not technically dependent on approval of its new Russian policy by the Dominions, the co-operation of other parts of the British Empire is ardently desired in London.

Well-informed persons think resumption of relations with Russia will be proposed in the King's Speech from the Throne, July 2, which will announce the program of the government.

It is thought the government may count on support from both opposition parties, since the leaders of the Liberal party severely criticized the Baldwin government for its break with Russia. Among many young members of the Conservative party there is strong sentiment for getting on normal terms with Russia.

NEW C.N.R. HOTEL FOR VANCOUVER

The finest hotel on the Pacific coast is now under construction in the heart of Vancouver for the Canadian National Railways. The excavation for the foundations has been completed and the steel contract awarded and work will be pushed vigorously until the hotel is ready.

This fine building, which will occupy a prominent place in the downtown section of the city, will be known as the Canadian National Railways Hotel. It will contain five hundred bedrooms and will be wholly modern in all its facilities. The photograph shows the architect's conception of the new hotel as it will appear when completed.

U.S. ENVOY TO BRITAIN

General Charles G. Dawes, new U.S. envoy to Great Britain, who discussed the question of naval disarmament with Premier MacDonald.

Rum Running Wanes

Significant Drop In the Export Of Liquor Is Reported

Windsor, Ont. — Canadian customs returns for the current month should show a significant drop in the exports of liquor from the Essex border docks, according to reports of the United States authorities.

Imports at the one-time notorious liquor receiving depot of Ecorse have been cut to a fraction, according to customs patrols, while the occasional run boat on the American side of the Detroit river is more or less of an oddity these nights, they say.

Considerable liquor, however, is getting through below Ecorse on the Trenton front, guarded by the greyhounds of the "dry" navy, the United States coast-guard cutters. The rum boats are shooting out from Amherstburg into the lake and there are no government boats in adequate numbers to stem the tide.

But this situation is to be remedied, according to plans announced. More than fifty boats of all descriptions are to be in service by July 1, it was reported, ranging in type from launches to the 70-foot speed boats, carrying one-pound guns and useful for long chases.

Declares Stresemann Failure

German Foreign Minister Faced By Non-Confidence Vote

Berlin. — Dr. Gustave Stresemann, German Foreign Minister, in a vigorous reply to severe Nationalist criticism, told the Reichstag Germany would not stand for the installation of a commission in the Rhineland as the price of its evacuation.

When he debate was finished for the day the Nationalists introduced a motion of no confidence against the Foreign Minister, declaring his five years in that post had been a failure.

Famous Movie Dog Dead

Hollywood, Calif. — "Strong Heart," dog hero of the movies, died at the home of his owner, Miss Jane Murfin. He was 13 years old. A complication of diseases, following an operation several months ago, caused his death. Trained in the Berlin police kennels, "Strong Heart" served with the German Red Cross during the "Great War."

Stockmen Protest Against Land Sales

Grazing Leases Said To Be Unsatisfactory To Cattle Men

Swift Current. — As a result of the Saskatchewan Stock Growers' Association Convention, held in this city, the stockmen of the province are taking action in several matters of importance to the ranching industry. The school lands grazing leases are anything but satisfactory to the cattle men, it being contended that government regulations regarding such leases have been changing so frequently that ranchers do not know where they stand in the matter from year to year, the latest action being the offering for sale of school lands used for grazing.

The Dominion Department of Agriculture is being asked to make a survey of the Dominion to ascertain the most suitable districts for winter feeding in the interest of the stock-raising industry.

Wins Hungarian Derby

Horse Sold For Seventy Dollars Captures Coveted Prize

Budapest, Hungary. — Condemned and sold a few months ago by his former owner for \$70 because he considered him "fit only for the plough," a three-year-old horse named Babalo, who was sold off with the Hungarian National Derby and a \$10,000 prize against a field of 21 of the country's thoroughbreds.

When Babalo's old master consigned him to the farm he was bought by a local tavern-keeper, who found him too slow to hitch to a cart. He turned him over to a friend, who, after a few months' training, prepared him to race again, the action culminating when he assumed the proudest place on the Hungarian turf.

GRAIN DRYING DETAILS GIVEN TO COMMISSION

Winnipeg. — The suggestion that two standards for grain grading be established — one for grain destined for the eastern seaboard and the other for westbound cargoes, did not receive the approbation of James D. Fraser, chief of the grain inspection department, when counsel for the Saskatchewan Royal Grain Commission asked his opinion of the proposal during the commission's sitting here.

"I don't see how two grading standards can be applied," declared the inspector chief for the western division. "Once the standard is set by the board it must be maintained regardless of its destination."

Technical knowledge of grain drying was given the commission by Dr. Wm. F. Geddes, professor of agricultural chemistry at the University of Manitoba, who was a member of the associate committee of national research on grain drying. Declaring the grain to be dried from any state, Dr. Geddes pointed out that according to the conclusions reached by his committee the safest manner in which to dry grain was by a continuous drying of grain through the dryer. Batch drying, he said, was found to be dangerous.

On Chief Brown's suggestion that bleached wheat could be tested before sold, Mr. Fraser replied that the only tests which could be made would be those of milling and baking.

"And to mill and bake wheat for testing purposes would be a great obstruction to the grain movement during the 'rush season,'" he added. The tests would take about two days, he thought.

To convince eastern and overseas buyers that damp wheat, when dried in elevators, is as good value as straight graded wheat of the same grades, Mr. Fraser thought the inspection department would have to be given complete supervision over all grain drying. If the wheat is properly heated, the color of kernel would be changed, he told the commission, but not the protein value. He thought that if the inspection department marked heated grain it would be accepted by buyers. The damage to tough and damp grain is all done during the heating process, the commissioners were informed.

Asked if he favored abolition of mixing in all grades, Mr. Fraser would not reply. He thought however, that prohibition of mixing would materially lessen the labor of his department, though he doubted whether the present uniformity in grades would be upheld.

SAPIRO FAVORS ONE HUNDRED PER CENT. POOL

Saskatoon. — "Your Pool needs one experiment of five years of pure co-operative marketing and I come with all sincerity to tell you that the next step is for a 100 per cent pool."

These were the messages brought by Aaron Sapiro, co-operative marketing expert, who addressed a large audience here under the auspices of the United Farmers of Canada.

In his opening remarks Mr. Sapiro announced that his subject would be "100 Per Cent. Pool Control." He told the gathering that he was not here under the auspices of the Wheat Pool, but at the request of the U.F.C. The fact the Wheat Pool board had gone on record in opposition to the 100 per cent pool was no reason at all in his mind why the question should be considered as a dead issue, he said. Although that was what he had been repeatedly told since arrival in Saskatchewan, the speaker declared.

"And the 100 per cent pool is far from dead," he emphasized, "regardless of who wants to put it under the ground." At the outset, he contended that a 100 per cent pool was not only proper, but absolutely essential for true co-operation. It merely meant, he explained, that when two-thirds of the farmers, or those who controlled two-thirds of the acreage wanted co-operative marketing, that all wheat grown in the province would be delivered to the pool for a period of years.

The legislation, which would be of a permissive nature, might be either provincial or Dominion. He was not concerned with the specific form of the law. The whole question was whether the farmers wanted a purely co-operative system or wanted one that was spiked with speculative agents.

Grain dealers, Mr. Sapiro said, would naturally be opposed to the idea of a 100 per cent pool. Also those in hook to the grain dealers, but he could not understand why co-operative leaders should be opposed to the idea.

Railways Paid Large Sums

Washington. — Canadian railroads took \$40,000,000, in round figures out of the United States as freight charges on United States commodities shipped over Canadian lines in 1928. These figures are contained in a pamphlet on international payments put out by the Department of Commerce. On the other hand, Canadians paid about \$14,000,000 to United States roads for similar transport.

Re-Elected As Speaker

London, England. — The new British Parliament held its first session under the Labor government and re-elected Captain Paul John, Indian servant, as the Speaker. Not a vote was cast against the popular presiding officer, who was lauded in the nominating speeches for his impartiality.

United Thanksgiving Services

Ottawa. — Churches of Canada are invited to unite with those of other parts of the Empire in thanksgiving services for the recovery of His Majesty the King on July 7. The cabinet passed an order-in-council constituting the official invitation. Each church will be asked to conduct its own services.

Used Primitive Methods

Port Arthur, Ont. — Throwing a stone at a big bear which he had surprised in the act of robbing his catch of pike, Paul John, Indian trapper, set off a stone strike and stunned the animal. He then rushed at the animal with a hunting knife, and, burying it in the bear's throat, killed it.

Russian Nobility For West

Quebec. — On the "Empress of Australia," arriving last week, are Prince and Princess Leo Galitzine, members of the Russian aristocracy who have been living in Paris since the revolution. It was stated they would take up farming in the west under auspices of the Canadian Pacific Colonization Department.

Market Commissioner

Victoria. — The Hon. T. G. Coventry, former M.L.A. for Saanich, and son of the Earl of Coventry, has been made market commissioner in London, after the British Columbia Government, it is understood. His main business will be to build up the demand for Osoyanagan fruit.

Canada also has the Glorious Fourth

Oddly enough Independence Day in the United States is also the anniversary of the introduction of ocean steamer service to the world and the re-founding of the greatest Merchant Marine in all history—the British Merchant Marine. On July 4th, 1840, Sir Samuel Cunard, then a progressive shipping merchant of Halifax, Nova Scotia (born there in 1787 of humble United Empire Loyalist parentage) astonished the world by steaming out of Liverpool, England, bound for America in his famous little old "Britannia," the first steamer to maintain a regular trans-Atlantic service. This sturdy little "side-wheeler" not only became the foundation for the million tons of shipping

operated today by the Cunard line, and the forerunner of the world's fastest liner of today, the Cunarder "Mauretania," but also added another chapter to Canada's pioneer role in the history of transportation. This year the Canadian Service of the Cunard Line brought to Canada for its first exhibition, the enormous Sir Samuel Cunard Silver Loving Cup (centre), presented to the Buenos merchant by the citizens of Boston in 1840. It stands over 30 inches high and is valued at \$50,000. It was shown to Canadians in leading centres as a reminder of the old "Britannia" (right), of the progressive Halifax citizen (left) and of Britain's pride, the "Mauretania" (bottom).

Local News

Miss Kraft, of the hospital nursing staff, has resigned and returned to Edmonton.

NOTICE—Anyone desiring to book the Altermatt orchestra during the month of July may do so by phoning Howard Picard, 253, Blair more.

Mrs. Green, cook for several months at the Miners hospital, has left for Calgary, and her son Clarence, who has been employed in Graham's barber shop, went with her.

Miss B. Pozzi and Miss Violet Rae played their first dance engagement with the Altermatt orchestra on July 1 in the Polish hall here, where a large number danced till 2:30 a.m. Both young ladies are pupils of Mrs. Altermatt and will substitute at the piano while she is visiting her mother in Denver, Colo., for a month.

In the local centre examinations held in Winnipeg under the direction of the Royal Academy of Music and Royal College of Music, Miss Mary Baron, formerly of Coleman, passed with honorable mention, being awarded 127 marks, 126 being the standard required for honorable mention in the pianoforte examinations. This is a very creditable showing and her friends will be pleased to hear of her progress.

With the rapidly growing popularity of the Talkies, many of the favourites of the silent drama are "trying out" before the microphones of modern moving picture studios; some are finding that their face is not their only fortune and are now fast capturing the favour of their audiences by their voice no less than previously they did by their silent acting. Above: We see June Collyer and George O'Brien, featured in Fox films examining the electrical recording device in their Hollywood studio. Behind them is the newest thing in screendom, the Movietone Recording Truck, which the Northern Electric Company is now supplying to its Canadian licensee producers for recording scenes for their news reels in various parts of the country. Left, the sound picture projector of today is a marvel of intricate apparatus but works simply as a sewing machine. Right, a section of sound film showing the sound track at the left which in this case recorded the sounds of an aeroplane in flight.

Ladies' New Summer Hats

In the Days of Mary Queen of Scots

In previous advertisements we have traced the progress of the art of brewing from 400 B.C. to the 15th Century when Burton on Trent became famous for its waters.

When Mary, Queen of Scots, was imprisoned in Tutbury Castle, Walsingham, in 1570, she furnished proof that beer was more than the drink of the commoner. She had her secretary enquire "at what place best Burton beer may be provided for Her Majesty's use" to which Sir Ralph Sadler, governor of the castle, replied: "Beer may be had at Burton three miles off."

Today malt beverages BEER — ALE — STOUT are considered Health Drinks.

11

"Where BEER has once been introduced, it has generally become the national beverage."

Death Comes to

Geo. A. Ritchie

Popular Forest Ranger of South Fork District Died After Several Weeks Illness

George Alexander Ritchie, aged 64 years, died at the home of his daughter, Mrs. Alexis Hall, early on Wednesday morning, after several weeks' illness from heart trouble. His wife died about three years ago, and the only remaining member of the family is his daughter. The funeral will be held on Friday afternoon, burial to take place in Coleman cemetery.

Decceased came west from Peterboro, Ont., and for several years was a foreman of one of the camps of the McLaren Lumber Co., and he was a personal friend of the Senator McLaren. Later he was appointed forest ranger under the Dominion Forestry Department with headquarters at the South Fork, his territory lying between Coleman and Waterton Lakes Park.

His genial disposition gained him many friends, and he would always extend a warm welcome to hunters and visitors to his district of which he was very proud and of which he would enthusiastically proclaim its scenic beauties and attractions to all who loved the great outdoors. His passing will indeed leave a void in the hearts of those who have been regular visitors during the fishing and hunting season at the South Fork.

Mr. R. Carson, inspector for the Imperial Bank, spent the holiday in Coleman, leaving for Creston on Thursday morning.

Mrs. Walker and young son will leave on Monday to spend six weeks' holiday with her parents in Vancouver.

Marjorie Halliwell left on Tuesday to spend the holidays with her former school chums at Weyburn, Saskatchewan.

An Army of Cordon Bleu Chefs

An army, said Napoleon, marches on its stomach, but a hotel prospers as much as anything on its food. These are the men at the Royal York Hotel who are responsible for the good cheer at that famous hostelry which was opened last week by the Governor-General with a distinguished company of prominent Canadians including the president and directors of the Canadian Pacific Railway, the premier of Ontario and many others. These chefs command an army of 175 culinary experts and indirectly another army of 300 waiters. They are from left to right: E. Argente, party chef; R. Albertella, assistant chef; J. Cherrier, head chef; J. Aublard, assistant chef; W. Thonfield, banquet chef; and P. Raaberg, grill chef.

A Woman's Pride

The useful pride which makes woman careful of her appearance and complexion finds a help in the purity and delicate clinging fragrance of

BABY'S OWN SOAP

The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

As gray dawn creeps over the New York skyscrapers, Marcus, the famous revue producer, is leaving the fashionable Plaza night club with a party of four. An actress companion suggests that they go to Blackie Joe's club, where the "fun is just starting," and Marcus consents. At Blackie's shabby club the newcomers are seated at a "ring-side table" by Al Stone, Blackie's head singing waiter and comedian, who wonders who they are. The pretty cigarette girl, catches the name "Marcus," and hopes the celebrated producer will do something to help Al, whom she admires tremendously.

CHAPTER II

As Al hurried toward the door leading to the bar, Grace speculated as to whether she could cut across and intercept him. But he was moving too fast and there were too many tables in between. She decided to wait until he returned, then she would drop a word as to Marcus' identity. It was necessary for Al to know that, so he could put everything possible into the comic songs he would sing in a few moments.

Grace's sensitive young face was a study in devotion. Al Stone had been her best friend at Blackie's place. When she had taken the job of cigarette girl a few months before, the crowds, waiters, bartenders and performers frightened her, the rough-and-ready atmosphere of the place made her shiver and she had herself. Then it was that Al had put his hand kindly on her shoulder and looked down on her apprehensive brown eyes.

"Don't be scared, kid. Everybody's all right here."

Two minutes later, Al had forgotten his words, but Grace treasured them and knew them by heart. She had promptly fallen in love with him. Al did not know this, no one knew it, not even Grace herself. She merely knew that the dark, gentle eyes of the young singing waiter had a quality she had never seen in the eyes of another man.

Now he was obscured for a moment as a chorus of dancing girls tripped across the floor. The chorus was agile, but that was all you could say. They were neither graceful nor beautiful.

Marcus, the producer, the connoisseur of femininity, the delectable, who picked out the loveliest girls for his revues and rehearsed them for months until they were perfect—Marcus made no attempt to hide his disdain at this apology for entertainment. Grace, however, was the pretty actress at his table with a bored look that said only too plainly: "So this is what you brought me to see!"

Then Grace heard a voice behind her, a rough masculine voice.

"Hey, cigarette girl, come here." She swung about and carried her heaping tray of cigars and cigarettes to a nearby table. Three met, blue-eyed and uncertain of speech, looked up into her face.

Had Diarrhoea Bowels So Active Feared For His Life

Mrs. S. J. Jagro, Canobie, N.E. writes:—"My little boy, when three years old, had a severe attack of diarrhoea. The bowels were so active, and he vomited so much, I feared for his life. I tried many medicines, but he was always getting worse. A friend told me of

and after the second dose I saw improvement. I gave him almost a bottle and he was completely relieved. I have used it for the other children, and my husband and myself. My husband gives it great praise, and when he goes away from home to work, he always takes a bottle with him."

Put up only by The T. Millburn Co., Ltd., Toronto, Ont.

W. N. 13792

"Want some—cig—cigarettes," said one of them.

Grace lowered her tray for this patron to make a selection and, as she did so, became aware that one of his companions had drawn his chair closer to her.

"Say, you're a nice kid," suggested the second man, with a rapid expression on his face. "Do you know—you're cute. I been watchin' you."

Grace smiled faintly, but ignored him otherwise, while she passed out the cigarettes to the first customer. That was what Blackie and Al had told her to do when the patrons became personal in their remarks—say nothing and attend to business.

As she leaned across the table to hand another pack of cigarettes to the third man of the party her skirts rose a trifle. Without looking she knew that one of the customers was looking her up and down. Then suddenly she felt her other hand in his tightening grasp.

She straightened up sharply and tried to draw away. She knew she mustn't make a scene, for, after all, she was only a night club cigarette girl, and the customers must be amused a little.

At this moment, Al Stone, just about to turn the corner to the door leading to the bar, shot a glance across the room and visualized Grace's predicament in a flash. In a moment he had veered across, while Grace gazed beseechingly into the drunken man's eyes and murmured, "Please let me go."

Then Al loomed at her side and stepped sharply on the man's foot. A cry of pain came from the customer and he released Grace to seize his aching toe. The girl caught Al's signal and made good her escape, while the three unfortunates stared up in bewilderment at Al's broad grin.

"Why did you step on my foot?"

"Did I do that? I'm sorry."

Again the broad, but guileless grin from Al. Then he moved off, swiftly as he had come.

But now he felt a hand lightly on his sleeve and looked down into Grace's wistful eyes.

"Thank you, Al," she murmured. The waiter patted her on the shoulder. "That's all right, Gracie. Those things will happen. If they bother you again let me know."

Al glanced down at the diminutive Grace and his handsome face softened, as it always did when he reassured her. But in the tenderness of his dark eyes he saw only the gratitude of someone he considered merely a sweet child. To him the marked evidence of acceleration in her breathing and the faint tremor of her warm and lovely little mouth were only her reactions to fright.

For when the singing waiter, as he moved away, while her eyes followed him adoringly.

Not until he disappeared and the throb of her heart swung back to normal did Grace recall that she had a message for him.

But when the singing waiter reappeared with his four beers on a tray he did not heed straight across the bar room. Instead he paused in the narrow entrance and glanced down a corridor. Through an open doorway he saw a good-looking blonde girl, a few years older than Grace, seated before a mirror in a tiny dressing room. She was studying her reflection in a self-satisfied way as she slowly and rhythmically brushed her lustrous golden hair.

This was Molly Winton, the ballad singer at Blackie Joe's.

Al moved slowly toward the door as if drawn by a magnet, forgetting his order for a moment. He eyes lit up at the sight of Molly and with fascinated gaze he watched her white, rounded, raised arms protruding from her pink silk dressing gown as she slowly manipulated the hair brush.

Molly was undoubtedly a pretty girl and one of the favorites at Blackie Joe's. Yet there was a hardness about her eyes and a petulance discernible at the corners of her mouth that boded no good for the man who would fall in love with her. Al, however, was blind to these defects.

As he neared her dressing room door she saw him, gave him one in-different glance, then turned to the mirror again to rouge her shapely lips. At that moment of studying her reflection Molly, the heart-song specialist, was gazing at the person she loved best!

(To Be Continued.)

Sixteen Planes Cross

The landing of the French monoplane, "Yellow Bird" in Spain brought to a total of 16 the number of times the Atlantic Ocean, north and south, has been crossed by heavier-than-air machines. Dirigibles have made the crossing five times.

The world uses eight matches per day per inhabitant.

Old London Church

Sanctuary Made Famous By Chas. Dickens Is in Danger Of Crumbling

The church of St. George-the-Martyr, immortalized in "Little Nell" by Dickens as "Little Dorrit's Church," is in danger of crumbling. All London knows St. George as "Little Dorrit."

Ominous cracks many feet long have appeared in the walls and crypt. These are gradually widening until now the whole structure has been placed in danger.

The authorities have threatened to condemn the building unless prompt action is taken to make it safe. The rector of the church has started a drive for \$25,000 for repairs to save it.

"Little Dorrit's Church" was built in 1736, and was given its popular nickname because one of Dickens' characters often slept in the vestry with the church register as her pillow.

Upon the site of St. George-the-Martyr stood another church dating back to 1122 in the time of the Saxons. It is the earliest if not the oldest church in London.

Service For Plane Passengers

May Receive Market Reports and Musical Programs Is Prediction

Aeroplane passengers of the future may expect to listen regularly to market reports, baseball scores, and musical programs, if the prediction of W. P. McCracken, Jr., of Cleveland, assistant secretary of commerce for aeronautics, comes true.

"These programs could be tuned in now, for that matter," McCracken indicates. "In favorable weather the pilot of a properly equipped plane has no need of his radio apparatus."

McCracken predicts that great developments will be made along the line of radio transmission from ground to plane and from plane to ground.

DO NOT NEGLECT YOUR LITTLE ONES

At no time of life is delay or neglect more serious than at childhood. The ill of little ones come quickly and unless the proper steps are taken, administering treatment a precious little life may be snuffed out almost before the mother realizes the baby is ill. The prudent mother always keeps something in the medicine chest to deal with the sudden onset of illness of her little ones. Thousands of mothers have found, through experience, that there is no other medicine to equal Baby's Own Tablets and that is why they always keep a box of the Tablets on hand—why they always feel safe with the Tablets.

Baby's Own Tablets are a mild but thorough laxative which by regulating the bowels and stomach banish constipation and indigestion; break up colds and simple fevers and promote healthy, natural sleep. Concerning them, Mrs. Isaac Sonia, St. Eugene, Ont. writes: "I have been using Baby's Own Tablets ever since baby was a month old and have found that they really do more good than any other medicine I have ever tried. I always keep the Tablets in the house and would advise all other mothers to do so." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Why Shouldn't It Be

Abe Lyman, the Hollywood jazz bandman, who is playing at the Kit Kat Club, in London, England, recently journeyed up to Scotland for the week-end. Returning from Glen-eagle to London, Lyman had as a travelling companion in his compartment a rather close-mouthed, middle-aged Scotchman. After an innumerable number of stops at various stations, he found he Scot looking more dour and solemn than ever.

"It's a long, wearisome journey," remarked Lyman, by way of making conversation.

The Scotchman looked at him with an angry frown. "So it ought to be," he replied frigidly. "It cost fifty-nine shillings, nine pence!"

Whether the corn be of old or new growth, it must yield to Holloway's Corn Remover.

Evening Up Balance

United States is growing fat on the manufacture of Canada's raw materials. Since United States will not accept a reciprocity of trade, Canada will have to retain some of that fat within her own boundaries by placing embargoes on those raw materials that will enrich their manufacture within the Dominion, and by establishing a reciprocity of tariff that will even up the trade balance between the two.

Mimard's Liniment for Neuralgia.

Why go to Peru?

When crude oil is so plentifully available here in North America, why does Imperial Oil Limited go 4000 miles to Peru for the crude from which Marvelube is made?

It is because Peruvian crude has lubrication properties which make it particularly desirable as a base for a superior motor oil.

That is why Marvelube is giving aircraft operators longer periods between engine overhauls and a greater margin of safety.

Marvelube meets the needs of the modern high-speed motor, in the air or on the road, because its carbon-free and heat-resisting superiorities are created by Nature herself.

Let Marvelube give you the benefits of better lubrication. There is a grade of Marvelube refined to meet exactly the specifications of your car, truck or tractor. See the Marvelube Chart at Imperial Oil dealers and service stations.

To Capture Cup

Sir Thomas Lipton To Make Another Effort To Win International Honors

"I'm going to do my damndest to bring the cup back," Sir Thomas Lipton said in the first interview he has granted since acceptance of his challenge to another international yacht race in 1929.

On the veranda of his mansion at Southgate, Sir Thomas appeared vigorous and healthy, despite the fact that he will be celebrating his 80th birthday at the time when the yachts are racing off Newport a year from next September.

"Do I think I can win the cup this time?" repeated the veteran sportsman, pondering for a moment. "Well, I am going to do my damndest. I hope and trust we will have good luck. To bring back the cup would be one of the greatest pleasures of my life."

Col. Duncan, Sir Thomas' racing manager, said that the Shamrock V., the challenging yacht, would not be a freak boat, and expressed the opinion that the rules for the 1930 race as outlined from New York bettered the chances of the challenger.

Bicycle Boats Are Latest

Have Become More Popular Than Swimming Channel

Bicycle-boating across the Channel has replaced swimming in popularity. Three athletes have already succeeded in crossing, so far this year. The latest was a woman, Miss Almee Pinner, who pedalled her way over on a nautical bicycle in 9 hrs. 19 mins. She was so worn by the effort that she fainted as she got off her seat.

The bicycles are fitted to two long-pointed pontoons, and the pedals are attached to paddlewheel propellers. The sea-bikes make about five miles an hour, but currents bother Channel bikers.

"My daughter is about to be married and I want to get her a nice gift," said a prosperous-looking man who entered a house furnishing store, adding: "Let me see your nutmeg graters!"

Farmer's Average Income

Cash Income Per Farm In Prairie Provinces Shows Increase For Last Year

The average cash income per farm home in the Provinces of Manitoba, Saskatchewan, and Alberta last year was \$25.44, exclusive of the value of seed, feed, meat, vegetables and other commodities produced and retained by the farmer for his own requirements, according to the Northwest Farmer. This is an increase of \$75 per home over the previous year.

Many mothers have reason to bless Mother Graves' Worm Exterminator, because it has relieved the little ones of suffering and made them healthy.

Wife: "Can you let me have a little money?"

Hubby: "Sure, as little as you like!"

Magpies build large strong nests which they use for several years.

Keep Foods Deliciously Fresh

Keep your foods—cakes, bread, pies, cut meats, etc.—under a covering of Para-Sani Heavy Waxed Paper. You'll be amazed at the length of time they'll stay fresh...delicious! Para-Sani keeps them from staling. Get Para-Sani in the handy, sanitary knife-edged carton. For less exacting uses ask for Appleford's "Centre Pull" Packs in sheet form.

Ledieu and Mr. S. Kleyko. All accounts owing to the firm will be payable to the present proprietors, and all accounts payable will be settled by them.

Date of publication, July 4, 1929.

Sale at Laslett's

Look up the big sale poster of Laslett's store, which is full of interesting items on reasonable ladies and children's clothing of all kinds. The sale opens on Saturday and will continue for the balance of the month. Some extra good bargains are announced for the opening day.

Mr. and Mrs. George Brown of Calgary spent the week-end with Mr. and Mrs. Roland Ladett, and their daughters Daisy and Evelyn accompanied them, to spend a month visiting here.

Here and There

(335)

Four hundred thousand babies have been born at Banff during the past fortnight. It is not the fine mountain air that accounts for this phenomenon, but the mountain water, and the babies are rainbow trout from the Dominion Government Fish hatchery on the banks of the Bow River. They will be placed in the lakes and streams of the Rocky Mountain Parks.

Canadian Pacific Railway Police, Ontario No. 1 team, are champion revolver shots of the Dominion. After winning the Chief Constables Association Trophy in May, the team shot against the Lethbridge detachment of the Royal Canadian Mounted Police which had won the championship for Military forces, and defeated them 142 against 1370. Possible score was 1500. The victorious team is composed of Investigator E. O'Brien, Sudbury; and Constables H. H. Gyves, Port McNeill; J. H. B. MacDonald, Toronto; D. Prondzant, Sudbury; and W. E. Tingman, White River, Ont.

With a population that ranks 28th among the countries of the world, Canada is fifth in total exports and third in total turnover of trade.

Charles Olsen and Raffaele Maullari, rival round-the-world racers, are trying to make a trip circling the globe in less than 30 days using only "regular means of transportation." Olsen left Victoria on Canadian Pacific greyhound Empress of Asia June 13, and Maullari arrived at Vancouver on the Empress of France June 22. Airplanes come within the term of the contract since both men have already used them. The race at time of writing is very close.

A problem that has defeated the learned for centuries—the squaring of the circle—has apparently been solved by L. W. Hartman, Canadian Pacific Railway timekeeper at London, Ont. Hartman claims he devised a geometric method by which to reproduce the exact area of a circle in the shape of a square. University professors are now examining his solution. He was born in Rumania and never saw a college, but speaks English, French, German and Rumanian fluently.

Adelard Goulet, head barber of the Banff Springs Hotel, had what he regards as a close shave the other day when he was off duty on the golf links and met a black bear. He topped his drive and the bear beat a hasty retreat. Wild animals are very tame in this district this year.

Of the 2,750,000 acres taken up by settlers in Canada in 1928 eighty per cent. was in such northerly districts as Prince Rupert, Saskatchewan, and the Peace River district, Alberta. The migration northward was most pronounced in the Peace River region, where 4,000 homesteads were taken up last year. In this district, there are still available 40,000,000 acres of fertile land, capable of adding millions of dollars to the annual value of the Dominion's crops.

Local News

Various parties of men from town spent the week-end at North Fork, and some fair catches of trout were brought in. The editor acknowledges with appreciation some fine trout from Chris Rogers, Ernie Houghton and Wm. Hogan.

Monday's ideal weather for the holiday enabled everybody to spend the day in the open, and picnics, auto drives and various other ways, of spending the day were enjoyed to the full. Two ladies celebrated the day by climbing Saskatoon hill, and lost the heels of their shoes in the climb.

A courteous personality is a valuable asset to any business man. No matter how efficient one may be in store service, a gruff answer or curt remark will quite easily offend a sensitive customer, and a hurt of that kind is never forgotten, though it may be forgiven. It takes considerable effort and time to build up customer good-will, but it can be destroyed in the twinkling of an eye.

W. L. Rippon, Maurice Cooke, C. Devine and Harry Antel enjoyed the beauty of the North Fork on Monday and spent a long day—from 3 a. m. till late in the afternoon—trout fishing.
